

## LOCAL MATTERS.

The Home Relief Society will meet at the residence of Mrs. George Harsh on Thursday afternoon, April 20th.

Messrs. Huntsman & Mong have their furniture room crowded with new and elegant material. The necessity for more space is so pressing that they are about taking another room adjoining, which has been handsomely finished up by Mr. Clay.

Mr. Durgin has a very neat and well arranged room at his new quarters, in C. Winhold's brick, just west of Warwick & Co's store. Anything in the watch, clock and jewelry line, in the way of repairing, will be promptly attended to.

Mrs. Briggs, wife of T. Briggs, and child, were suddenly thrown from a buggy one day last week, and both somewhat injured—the child perished seriously.

Col. Webb while trimming his grapevines a few days ago fell about ten feet to the ground, sustaining some injuries, but it is hoped not of a serious nature.

Dr. Schertzer, who a few weeks ago was confined from the effects of a fall for a month or so, is now able to be about town as usual.

Mr. W. King, C. E., for sometime superintendent of the Yellow Bank coal mines, has left this place and returned to Ravenna. Mr. Pocock succeeds him at the mines.

James R. Osgood & Co., publishers of *Every Saturday*, Boston, are now issuing weekly installments of the most noted work of fiction of the present day, written by Charles Reade, an author of great celebrity, and in some respects equal to the late Charles Dickens. This production of Mr. Reade is eagerly sought for.

Week before last as the foreman, bro Hutton, of the Salem Republican, was preparing to go to press, the third page of the paper accidentally fell and was piled completely. A bad fix for bro. Rukensbrod—here were about one hundred thousand pieces of metal to be put in their proper places, as they were in a state of miscellaneous hotchpotch, which printers call it. It is a short word, but means a great deal, and is not near so palatable as the pie that women make, though they are regarded as indulgent by many, and an imposition on the stomach, but printers pi is an exceedingly dyspeptic article, and excites the bile on an unlucky fellow when he has something like a bushel to digest. Job did not know anything of this sort of pi, so had no hard words to say in regard to it, but some of the typographers, in such emergencies become eloquent in cursing their bad luck—yet that don't fix the pi.

Our advertising patrons are favoring us quite liberally—even crowding us pretty close. Feel as if we can stand it quite well, and hope they will continue the good work—good for both them and ourselves.

One of the finest works of modern times—at least so regarded by many—is a volume entitled *Library of Poetry and Song*, the production of that accomplished writer, poet, and Nestor of the press, William C. Bryant. See notice of the publishers, J. B. Ford & Co., in another place. Although it has not been before the public but a short time, this admirable production, an encyclopedia in comprehensiveness, has elicited the warmest encomiums of the leading papers, religious, literary and political, and will increase in popularity the more it becomes known. The mature age and sound judgment of the author are guarantees that the value of this book cannot be overestimated by literary men and the reading public.

After a brief visit to their homes, Hon. A. C. Wales, senator for this district, and Hon. S. C. Bowman, representative, started for Columbus on yesterday morning. There is some prospect that the legislature may adjourn about the last of this month.

Grossklaus & Co. have been fitting up their corner with a fine new case filled with some of the best specimens of photography to be found in these parts, which are attracting the attention of all passers by.

Many of our citizens are taking advantage of the season and planting considerable numbers of shade trees on the sidewalks in various parts of town.

Myers & Willison are carrying on the wagon making business at their establishment, and preparing to turn out a large amount of work in that branch of their manufacture.

Mrs. Borden has removed her store to one of those pleasant rooms in Mr. Falk's new building, and we are informed that a shoe store is about to take the room she has vacated.

J. G. Adel, of Columbus, proposes to publish a full report of the speeches, &c., at the successful prohibition convention at Delaware, Ohio, held in that place some weeks since. The document will be a timely one, and should be widely circulated among the people, as it contains facts and arguments which cannot be ignored by the most indifferent, or overturned by the blindest opposers. Single copies 10 cents—20 copies \$1.50, and 100 for \$5.00.

On Monday last, and even on Sunday evening, vigorous strainings seemed to be made to effect a rain, but with the exception of a few drops of the fluid the effort was a failure. It seems almost as if the heavens were brass, and waterproof at that. Water is failing, and in some places springs, wells and streams are comparatively dry. We may have it otherwise soon.

A new firm of bakers at Canton created some sensation in this place last Monday, by sending a brass band here, which enlivened our streets for a short time with their strains of music. Accompanying the band wagon was a light vehicle, the outside of which was liberally ornamented with posters concerning the bakery. That is a common way of advertising in large cities—here it is somewhat new.

The report is current here that a new dry goods store is to take the room in the Opera house formerly occupied by W. M. Wenz & Son.

The Ohio Stock Fair, which has been in contemplation some months, is to take place at Tiffin on the 8th and 9th of June next. Horses, cattle, sheep and swine are to be exhibited; and especially do fast horses hold a prominent place in the exhibition. It is well to improve stock of all classes, not excepting humans, but this making fast horses a leading feature is liable to lead to evil results.

The air has been considerably cooled down within the last few days, and Friday, Saturday and Sunday mornings, pretty heavy frosts prevailed in this vicinity. Notwithstanding the forwardness of the peach and cherry trees—being in full bloom—the hope is, the fruit prospects may yet be safe, as the weather has been very dry for many weeks.

Dr. D. G. Curtiss, who has been a homoeopathic practitioner here between four and five years, leaves the place this week, with the view of settling at Chattanooga. Dr. Curtiss, late of Utica, N. Y., will follow the same system of practice, and occupy the office formerly used by Dr. Curtiss. Dr. C. prospered in his business here, has numerous friends, and possibly some enemies.

One night last week our city council voted thirty times, save one, for clerk being four—just four—a dead lock. Next evening the two candidates withdrawing, Mr. Chas. Higginbotham was chosen clerk.

A troupe of burnt cork and bones minstrels visited this place last week and had a full house. It don't require very profound thought to see the broad jokes and fun of these performers—that's why black paint takes.

Mr. Walser, carriage maker, has gone to Minerva to go into business there.

Our friend, J. B. Souder, is agent for the Massachusetts Mutual Life Insurance Co., located at Springfield. Capital, \$3,000,000. Mr. S. is circulating the documents, and means business. For a beginner he is meeting with good success.

Dr. Lyon, formerly of this place has settled in the village of Unity, Columbiana county, where he will practice his profession.

New York Ledger Night, New York Weekly 5 cts, Saturday Night 5 cts, Harpers Weekly 5 cts, Frank Leslie 5 cts, dime novels 5 cts, fifteen cent novels, 10 cts, at the news depot, removed from the opera house four doors east of the American Hotel.

The nicest styles of wall paper for the least money at the news depot.

Stationery, blank books, inks and miscellaneous articles cheaper than any store in the county at the news depot.

Cheaper than cost is the wall paper at the News Depot.

We would call the attention of the city fathers and mothers, and the country fathers and mothers, and the heads of families generally, to the fact, "and 'tis a very weighty one in these times," that by going groceries and provisions cheap it is only necessary to call at London's Cheap Cash Store, where they will find a choice assortment of goods at prices that will well repay them for their visit. Farmers, bring in your produce and get the cash.

W. B. Humberger, of the firm of Humberger & Son, has gone east. Look out for a nice stock of goods.

Extra lengths, regular made white cotton hosiery for misses and children, at Estep's.

Table damask, towings, napkins, crash, linen cloth and plain bleached linens, cheap, at Estep's.

About dark on yesterday evening the bell raised the alarm of fire, which was found to be the board kin of Messrs. Mong & Crawford, on the west bank of the canal. The firemen were promptly at the scene of action but such was the nature of the fire that they had considerable of a combat before securing "mastery." What amount of loss the proprietors sustained we have not ascertained but we hope it was not serious. It is said they had several hundred dollars worth of lumber in the building.

Terrible times yet in and about Paris. Slender of people and destruction of property are the order of the day. When will these things cease.

An effort was made last night to break in to Dr. Watson's drug store by way of the cellar, but was a failure, so no damage was done.

The wheat fields in this part of the country seem to be far enough advanced to be the middle of May, some of the grain being five or six inches in height. Much of the oats and barley is sown and up.

Soda water in a great variety of flavors can be had at Stilgenbauer's confectionery on Mill street. Ice cream has also put in its appearance.

Mr. Crooks is just about opening out his new depot in the opera building, and in addition to his variety of reading matter he expects to keep on hand reticulation in quantities to suit the wants of all who may call on him.

A fine exhibition of auroral lights was witnessed on Monday evening, by many of our citizens.

We understand that Messrs. Wales, Bowman and Johnson, our present delegation in the Ohio legislature will be candidates for re-nomination. This is as it should be. They all have worked and voted in the interest of the people, and against monopolies, the republican party cannot do better than to re-nominate them; they will add strength to the ticket in this country.

But a few days ago a neighboring editor was shown a copy of that ancient paper, the *Uster county Republican*, N. Y., which has elicited the admiration of many of the brethren of the press—because every one of these recipients has seen or has in possession (he thinks) a real copy of that noted paper, dated January 1, 1800, in which is a full account of the death and funeral over the body of Gen. Washington. The deception holds out longer

than Locke's moon hoax. The truth is, some fifteen years ago certain parties found an old paper of the above date; they went to work and prepared the old fashioned types and paper (as near as they could get them) prepared and printed off a very good imitation of the original, and it is said they sold enough to make the enterprise pay well, for every purchaser imagined he had the bona fide article, when it was only a counterfeit. These specimens are pretty well scattered over the country, as we see an editor deceived occasionally yet by the humbug.

ONLY 30 DAYS MORE.—All persons indebted to the late firm of Kelley Bros., are requested to call and settle. All accounts not settled by that time will be left for collection.

407-33  
Massillon, April 10.  
Saul & Hershey now occupy the meat market on Mill street, formerly in possession of Saul Bros.

Real and imitation lace at Humberger & Son's.

Mr. F. Albright has taken into partnership his son, in the grocery business, on the corner of Main street and Exchange Place. Spring cassinere for boys wear, at very low prices, at Humberger & Son's.

Mr. F. Leffler, who has had for many years in his employ Mr. Switzer, as clerk, in his grocery, last week took him in as a partner in business.

The best bargain in white cotton hose in the city is at Humberger & Son's.

Gents kid gloves also lisle thread and the celebrated wash leather glove, at Estep's.

The largest stock of kid gloves, and best make, at Humberger & Son's.

The snow white velvet cord at Estep's, is at once elegant, stylish, fashionable and washes well.

Muslins by the piece, bleached and unbleached at great bargains at Humberger & Son's.

Estep offers new style collar and lace trimmed handkerchiefs at low prices.

You can buy a carpet cheap at Humberger & Son's.

Estep is just receiving a fresh invoice and regular, made hose for Misses and children; extra length.

Drawing and Oil Painting. Lessons will be given in these branches during the coming summer, by Mrs. Chas. F. Moore, at her residence on Tremont St. Terms commencing May 3d. Oil painting \$12; drawing \$4.

Humburg edging and embroideries of all kinds, and the cheapest, at Humberger's.

The best woven corset in the city at Rick's.

Rick's, are selling a lot of carpets because they are selling them cheap—all parties who want anything in the carpet line will find it to their interest to call and examine their prices—they will not be undersold by any one.

In men's and boys' wear Rick's have a large variety of woolsens which will be sold at a low price. Call and see our prices.

You can buy the best cheap muslin at Rick's, go and see their prices, it will put you in mind of the good old times when a dollar bought an armful of goods.

Humburg edging in large variety of styles; these goods are being sold very cheap at Rick's. A beautiful assortment.

Dress goods! Dress goods! Wanted, a thousand ladies to go to Rick's and see their goods, you will be sure to be pleased in styles and prices. Don't fail to give them a call.

Sash ribbons in black and fancy colors, selling very cheap, at Rick's.

When you want to buy a shawl you can find everything new in that line at Rick's.

Black alpaca and mohairs, the best goods in the market, at the old prices, at Rick's.

If you want to get good HATS or CAPS and save money, go to N. Minich's hat store corner of Main and Mill streets Massillon.

MARRIED.—By Rev. J. P. Bach, on the 10th inst. Mr. William P. Lape to Miss Katie E. Keontz, all of Massillon.

THE BLOOD.

The blood is the life of the body. Disease is the antagonist of life. Every attack of disease is an attack upon the blood.

From the blood is secreted the urine. Every deviation from the standard quality of the blood is represented in the changed condition of the urine which is secreted from it. And as is the change in the blood, so will be the change in the urine at the time. To know the condition of the urine, then, is to know the condition of the blood and the kind of deviation or disease.

These are practical facts of medical science. Propositions which have been clearly demonstrated by the labors of illustrious medical authors, Bird, Prout, Simon, &c., and which are daily being satisfied by the examination of numerous specimens of urine sent to our office representing every class and variety of disease.

Those who would obtain a knowledge of this important branch of the medical art, having a knowledge of the appearance and standard properties and qualities of the urine, as also the general pathological conditions in disease, can soon learn the chemical analysis and microscopic operations necessary to detect the precise nature of almost every malady with a positiveness amounting to more nearly mathematical precision than is possible in any other way.

And knowing that hundreds of others are still lingering under a miserable existence without medical aid, some because they have passed through the "old ordeal" without relief, and some perhaps because they may not know where to apply to, we feel justified in making these facts public, satisfied that a number will seize upon these plain truths and be fully rewarded by a cure.

To build up! not to break down! To stimulate the organic system, to a healthy action, and strengthen the body to its full vigor of animal life, are the principles which will lead to success, if success is at all to be had.

DRS. OLDSHUE.

132 Grant St. Pittsburgh Pa.

When disease has undermined the health, and the physical system has become prostrated, a stimulant that will not only strengthen, but remove the cause, should be immediately resorted to. Mental distress is also a fruitful source of the breaking down of the constitution, and the ravages of the enemy which are truly alarming. For all such maladies Hostetter's Stomach Bitters have been found unsurpassed. By acting directly upon the digestive organs, they remove the heavy disagreeable feeling after eating, so often complained of by persons of a delicate temperament. As soon as digestion is restored, the patient finds his strength increasing, and his general health improved.

Thousands of persons certify that it may be relied on in all cases of weakness or nervous debility attendant upon sedentary habits. The general utility of Bitters for a delicate stomach. This is not the case with Hostetter's Bitters, which is found mild and extremely pleasant. Balsamic plants, barks and roots contribute their restorative juices to render it soothing and strengthening. Its basis is the only pure stimulant of a delicate stomach. The blood is the life of the body. Disease is the antagonist of life. Every attack of disease is an attack upon the blood.

From the blood is secreted the urine. Every deviation from the standard quality of the blood is represented in the changed condition of the urine which is secreted from it. And as is the change in the blood, so will be the change in the urine at the time. To know the condition of the urine, then, is to know the condition of the blood and the kind of deviation or disease.

These are practical facts of medical science. Propositions which have been clearly demonstrated by the labors of illustrious medical authors. Bird, Prout, Simon, &c., and which are daily being satisfied by the examination of numerous specimens of urine sent to our office representing every class and variety of disease.

Those who would obtain a knowledge of this important branch of the medical art, having a knowledge of the appearance and standard properties and qualities of the urine, as also the general pathological conditions in disease, can soon learn the chemical analysis and microscopic operations necessary to detect the precise nature of almost every malady with a positiveness amounting to more nearly mathematical precision than is possible in any other way.

And knowing that hundreds of others are still lingering out a miserable existence without medical aid, some because they have passed through the "old ordeal" without relief, and some perhaps because they may not know where to apply to, we feel justified in making these facts public, satisfied that a number will seize upon these plain truths and be fully rewarded by a cure.

To build up! not to break down. To stimulate the organic system to a healthy action, and strengthen the body to its full vigor of animal life, are the principles which will lead to success, if success is at all to be had.

DRS. OLSEN.

132 Grant St. Pittsburgh Pa.

A Chicago correspondent sends us the following:

During a recent trial before Justice Dougherty it was thought important by counsel to determine the length of time that certain "quarters of beef, 2 hogs and 1 sheep" remained in an express wagon in front of plaintiff's store before they were taken away by the defendant. The witness under examination was a German, whose knowledge of the English language was very limited; but he testified in a very straightforward way to having weighed the meat, and to having afterward carried it out and put it into the aforesaid wagon.

Then the following ensued:

Counsel Enos.—"Sir, to the jury how long it was after you took the meat from the store and put it into the wagon before it was taken away."

Witness.—"Now I shoot and don't dat, I think 'bout twelve feet. I not say nearer as dat."

Counsel.—"You don't understand me, how long was it from the time the meat left the store and was put into the wagon before it was taken away by the defendant?"

Witness.—"Now I know not what you ax dat for. De wagon he was back up mit der sidewalk, and de meat shoost so long as it was. You dell me how long de sidewalk was. Den feel? Dwellve feet? Den I dell you how long it was."

Counsel.—"I don't want to find out how wide the sidewalk was, but I want to know" (speaking very slowly) "how long—this meat—was in the wagon before it was taken away?"

Witness.—"Oh dat! Vell, now, I not sold any meat so. I all time veigh him; never measured meat, not yet. But I think 'bout three feet." (Here the spectators and his Honor and the jury smiled audibly.) "I know not, shentlemens, how it is. I dell you all I can, so good as I know."

Counsel.—"Look here, I want to know how long it was before the meat was taken away after it was put into the wagon?"

Witness (looking very knowingly at counsel).—"Now you try and get me in a scrapec. Dat meat was shoost so long in der wagon as he was in der shop. Dat's all I told you.—Dat meat was dead meat. He don't got no longer in den dousan' year, not much."

Counsel.—"That will do."

Loud noises are said to kill certain delicate insects, and we have good proof that if loud enough, and long continued, they are capable of killing, or seriously injuring, human beings, under certain conditions of the body. There is a German soldier lying in one of the Dresden hospitals whose nervous system has been shattered, seemingly beyond hope of recuperation, by the din of battle. He can neither see, hear nor speak, and seems not to feel, and is, in reality, for the time being, a living corpse. And injury to the brain from a fragment of a shell has thrown another soldier, now in the hospital at Bautzen, into the same condition, with the exception that his fingers continually move as if he were in the act of knitting.

If you desire rosy cheeks and a complexion fair and free from Pimples and blotches, purify your blood by the use of Dr. Pierce's Alt. Ext. or Golden Medical Discovery. To avoid counterfeits see that it has, upon the outside wrapper, Dr. Pierce's private Stamp, issued by the U. S. Government expressly for stamping his medicines, and which bear his portrait, name and address upon it.

"Was Mr. Chiselen a very popular man when he lived in your town?" inquired a busybody of a friend, "I should think he was, as many persons endeavored to prevent his leaving, and several of them, including the sheriff's officer, followed him some distance," replied the gentleman.

The subscriber has two dwelling houses to rent, one of which is located on the corner of Tremont and Canal streets, and the other on Charles street. For terms and particulars call at his residence on Canal street. JOHN SCHERTZER.

DOCTOR OLIN,  
THE longest engaged and most successful Physician in Chicago, in the treatment of all urinary diseases, Syphilis or Mercurial affections of the Throat, Skin, or bones, are treated with unparalleled success. Syphilis, Scrofula, and Debility and Impotency, as the result of self-abuse in youth, excesses in mature years, or other causes, and producing some of the following effects: Nocturnal emissions, blotches on the face, dizziness, dimness of sight, confusion of ideas, and loss of memory, and sexual power, rendering marriage improper and almost impossible, are permanently cured. The Doctor's opportunities in hospital and private practice are unsurpassed in Chicago or any other city. Office, parlors, laboratory, and appointments are unrivaled in the west, and unsurpassed anywhere.

Age, with experience, can be relied upon, and the doctor can refer to many physicians throughout the country. In past success, and present position, he stands without a peer. The writings of a physician whose reputation is on an wide should be worth reading.

Doctor Olin publishes a Medical Pamphlet relating to Venereal Diseases, and the dangerous and varied consequences of Self Abuse, that will be sent to any address in plain sealed envelope for two stamps, provided circular to Ladies one stamp. Many physicians introduce patients to the Doctor, reading his medical pamphlet. Communications confidential. Consultations by letter or at the office, free.

Office central, yet retired, No. 192 Washington street, Chicago. Hours, 9 a.m. to 8 p.m. Sundays 9 a.m. to 12 m. 394 1/2

The Independent,  
Massillon, Ohio,  
Is now Seven Years Old, and  
"Still Lives."

Without boasting of being an organ of immense influence, we may with diffidence claim that the paper is not without usefulness in the right direction, ever contending for justice on all the living issues of the day. But its principal business has ever been to subscribe the local interests of the community with which it is identified, and so it proposes to continue. Its home record of the ever varying phases of business, of the prosperity of the city, and of the social and moral state of society here, with other matters too numerous to specify, will give those who come after us, and have occasion to examine the files of this paper, a faithful history of the years of its existence.

We solicit the continued patronage of our people in the confidence that we shall render satisfaction—at least as near as we can come to it—and for such as are removing elsewhere we hope to make the Independent a very welcome visitor.

ADVERTISING  
Done on easy terms. Our patrons have been liberal toward us in this respect, and we hope they may continue such welcome favors, satisfied that they are well paid for their investments.

FIFTY per Cent. Dividend declared January 1, 1868.  
H. H. GAHAGAN, Sec.  
M. O. WAGGONER, Gen'l. Sup't. for Ohio and Michigan, Norwalk, O.

Dr. J. LONG,  
Eclectic Physician,  
Has located himself at Massillon, O., for the treatment of  
Female & Chronic Diseases.

Office on Main street, four doors east of the American Hotel.  
All consultations and examinations of patients made free of charge.  
Dr. Long examines and explains your disease without asking any questions. If he understands your case you know it, and cannot be deceived. If he cannot tell your disease, and how you feel without asking questions he does not consider himself competent to treat your case. This is the criterion to go by, and patients should not be satisfied with any other. This is the only direct and positive evidence of my ability as a scientific physician, and by this standard I am willing to be judged.

A proper diagnosis of local disease, without constitutional symptoms, that is, not of affecting the system generally, must depend upon the judgement of both patient and physician.

Give Dr. Long a call, and satisfy yourself whether he understands your cases sufficiently well to treat them successfully. Dr. Long may be consulted in the German and English languages. Address letters, JAMES LONG, M. D., Massillon, Ohio.

371-1/2

MONEY CANNOT BUY IT!  
For Sight Is Priceless.

THE DIAMOND SPECTACLES  
WILL PRESERVE IT.

The Diamond Glasses,  
Manufactured by  
J. E. SPENCER & CO., N. Y.,  
Which are now offered to the public, are pronounced by all the celebrated Opticians of the World to be the most perfect, Natural, Artificial help to the human eye ever known.

They are ground under their own supervision, from minute Crystal Pebbles, melted together, and derive their name, "Diamond," on account of their hardness and brilliancy.

THE SCIENTIFIC PRINCIPLE on which they are constructed brings the core or center of the lens directly in front of the eye, producing a clear and distinct vision, as in the natural, healthy sight, and preventing all unpleasant sensations, such as, glimmering and wavering of sight, dizziness, &c., peculiar to all others in use.

They are Mounted in the Finest Manner in frames of the best quality, of all materials used for that purpose.

CAUTION.—None genuine unless bearing their trade name stamped on every frame.

JOSEPH COLEMAN,  
Jeweler and Optician, sole agent for Massillon, Ohio,  
From whom they can, only, be obtained, these goods are not supplied to peddlers at any price. 378-1/2

115 Wood st. 2 doors from 5th avenue, 403-2m Pittsburgh, Pa.

Great Cause of Human Misery.  
Just Published in a Sealed Envelope, Price six cents. A Lecture on the Nature, Treatment and Radical Cure of  
of Spermatorrhea, or Seminal weakness, involuntary seminal losses, impotency, neural and physical incapacity, impediments to marriage, etc., also, consumption, epilepsy, and fits, induced by self-indulgence or sexual extravagance.

The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This lecture should be in the hands of every youth and every man in the land.

Sent under seal, in a plain envelope, to any address, postpaid on receipt of six cents or two post stamps.

Also, Dr. Culverwell's "Marriage Guide," price 25 cents.

Address the publishers, CHAS. J. C. KLINE & CO., 127 Bowery street New York. P. O. Box 4,586. 871-1/2
